

I like these plants . . .

Your yard is a major investment you will enjoy for years to come. Visiting our garden center prior to your appointment may help you with the look you want to achieve. A walk through of the various areas of our garden center (trees & shrubs, sun & shade perennials, annuals, accessories: furniture, fountains, statuary, garden art etc.), will give you an opportunity to note which plants and garden products appeal to you AND will help us with your custom landscape design.
